What happens at the dentist

Cut out the cards. Put them in order, then turn each one over as it happens.

1 **Say hello**

2 **Wait and play**

3 **Sit in the big chair**

4 **Open wide**

5 **Count teeth**

6 **Brush and polish**

7 **Rinse**

8 **All done!**

First, then, all done

Lay two or three cards here so your child can see what is happening now and what comes next.

First	Then	All done

My visit, in order

1	2	3	4

For grown-ups. Ask the office which steps your child's visit will include and leave out the rest. A card your child can hold gives them something to do with their hands while they wait.
